Mapping the Social Landscape Susan J. Ferguson 2020-08-27 The author is a proud sponsor of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. Mapping The Social Landscape is one of the most established and widely-used readers for Introductory Sociology. The organization follows that of a typical introductory sociology course and provides coverage of key concepts including culture, socialization, deviance,

social structure, social inequality, social institutions, and social change. Susan J. Ferguson selects, edits, and introduces 58 readings representing a plurality of voices and views within sociology. The selections include classic statements from great thinkers like C. Wright Mills, Karl Marx, and Max Weber, as well as the works of contemporary scholars who address current social issues. Throughout this collection, there are many opportunities to discuss individual, interactional, and structural levels of society; the roles of race, ethnicity, class, gender, and sexuality in shaping social life; and the intersection of statuses and identities. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides. Then it’s time to invite your friends over to show off the batched and ready-to-pour mixtures you stored in the freezer so you could enjoy your guests instead of making drinks all night. More than 600 recipes anchor the book, including classics, low-ABV and nonalcoholic cocktails, and hundreds of signature creations developed by the Death & Co teams in New York, Los Angeles, and Denver.
