Instructive Chess Miniatures Alper Efe Ataman 2016-08-23 Warning: this book is not just entertainment. The author wants to teach you a lot about chess and improve the quality of your play! He has selected 50 miniatures from throughout chess history the earliest are from the 1850s, while the most recent are from grandmaster events just a few months ago! A miniature is a decisive game, won in 25 moves or fewer. Most of these 50 games feature brilliant tactics, attacks on the king, and even a few outrageous king-hunts. In many, the winner had to overcome cunning defensive ploys and inventive counterattacks. But our aim in this book is not just to admire the players skill, but to learn how we can play like this in our own games. Chess coach Ataman is keenly focused on the instructive points, explaining which features of the position justified the attacks, and what prompted the critical decisions. Where analysis is given, it is restricted to what it would be realistic for a human to work out at the board. But why are miniatures so instructive, especially for younger players? It s because we get to see an idea or plan implemented successfully, in full. Once we understand what players are trying to achieve, we can then appreciate how to oppose these ideas, and the cut-and-thrust typical in modern grandmaster play will make a lot more sense. Alper Efe Ataman is a FIDE Master from Turkey. He is a chess publisher, author and an experienced trainer, especially at the scholastic level. "

Miniatures in the Queen's Indian Carsten Hansen 2017-11-23 Instructive Miniatures in the Queen's Indian Defense - Spice up your chess opening repertoire and sharpen your chess tactics Miniatures in the Queen's Indian: 4.g3 The subject of this book is the Fianchetto Variation of the Queen's Indian Defense, which arises after 1.d4 Nf6 2.c4 e6 3.Nf3 b6 4.g3. Its purpose is to

entertain and educate you. The entertainment consists of 100 main games all of which are 25 moves or less. In addition to the main games, you will find miniatures included in the notes, along with many other complete games. The education part involves solving tactical puzzles, reasoning your way to the right move, spotting combinations and studying the theory associated with these lines. While the theoretical coverage may not necessarily be as deep as in opening monographs or repertoire books, there's usually more than enough to give you a good understanding of the particular line, making it easier for you to incorporate it into your opening repertoire. We have also tried to include some key alternatives with analysis to give you an idea of other possibilities for both sides. As for the games, they are typically between players with a rating of at least 2350 and in fact are often stronger. The Queen's Indian as a whole has been played consistently since its invention by Aron Nimzowitsch in the early years of the 20th century and it remains a very popular opening at all levels. While its foundation is solid, things can quickly become very sharp and heavy on theory, particularly when Black plays 4...Ba6. We hope you enjoy this second volume in the "Miniatures" series... "Every chess player dreams of winning quickly and beautifully in his favorite opening. Carsten Hansen's new "Miniatures" Series shows you how to do that, divided by opening! A novel and entertaining approach. But as they say - wait, there is more! It's in the nature of chess that miniatures can only be won following mistakes by the opponent. The books can also show you which early mistakes to avoid so that you don't lose quickly and beautifully in your favorite opening. Get the volumes with your openings and use them as preparation for your next tournament!" - Grandmaster Lars Bo Hansen

A Guide to Chess Endings Max Euwe 1976-01-01 One of the finest modern works on chess endings. Thorough analysis by former world champion. 331 examples, each with diagram.

Miniatures in the Sicilian Najdorf Carsten Hansen 2016-06-13 INSTRUCTIVE NAJDORF MINIATURES "An opening book based only on miniatures? Perhaps it sounds odd at first, but it works well in the sharp Najdorf, and even in the more positional Queen's Indian Defense. As usual Carsten's theoretical coverage is thorough, and the books are not repertoire based, but gives a full examination of these topical openings. Is it limiting only to show miniatures? Maybe, but one somehow get the purified version of a successful strategy, when the games are not complex battles, but a slam-dunk! - Grandmaster Peter Heine Nielsen, Coach & Second to World Champion Magnus Carlsen The purpose of the book is to entertain and educate you. The entertainment consists of 100 main games all of which are 25 moves or less. In addition to the main games, you will find miniatures included in the notes, along with many other complete games. The education part involves solving tactical puzzles, reasoning your way to the right move, spotting combinations and studying the theory associated with these lines. While the theoretical coverage may not necessarily be as deep as in opening monographs or repertoire books, there's usually more than enough to give you a good understanding of the particular line, making it easier for you to incorporate it into your opening repertoire. We have also tried to include some key alternatives with analysis to give you an idea of other possibilities for both sides. As for the games, they are typically between players with a rating of at least 2350 and in fact are often stronger. However, we have made some exceptions

to this guiding principle when a lower-rated player beats a player rated above the magical 2350 number. So that the performances of the players may be evaluated better, their ELO ratings have been included. The subject of this book is the Najdorf Sicilian, which arises after 1 e4 c5 2 Nf3 d6 3 d4 cxd4 4 Nxd4 Nf6 5 Nc3 a6. The Najdorf has been and continues to be a tremendously popular opening at all levels. It is sharp, unbalanced, with many theory-laden lines – and fun. The main lines after 6 Bg5 e6 7 f4 are steeped in theory, making them tricky to play, especially for players with limited time to study.
